PROJECT EXPERIENCE

AI-Based Travel Planner Agent:

Designed and developed an intelligent travel planning system using IBM watsonx.ai and the Granite AI model. The application collects user preferences such as destination, budget, and trip duration, and generates personalized travel itineraries. The project focuses on prompt engineering, API integration, and delivering accurate and relevant results.

COMMUNITY INTERNSHIP:

I completed a community internship on waste classification, where I learned to identify and separate different types of waste, such as biodegradable and non-biodegradable materials. I gained a basic understanding of waste management practices, recycling methods, and environmental cleanliness activities. I also participated in community awareness programs and developed
